Linda M. Walsh  
Transportation Planner  
Community Compliance Section  
Department of Transportation, Highway Division  
Right of Way Bureau  
1000 County Road  
Taunton, MA 02780

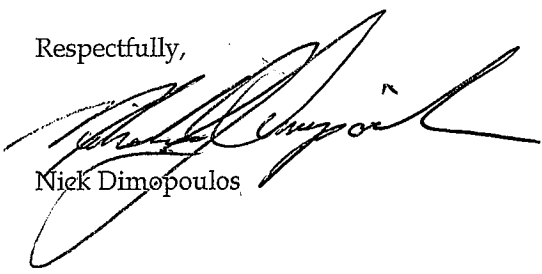

Ms. Walsh,

Please note that Dimopoulos Realty Trust remain enthusiastic and supportive of the Assabet River Rail Trail. We are aware that this project will require an easement along the back of our property along High Street from our most westerly boundary to Sudbury Street.

This is an exciting project that combines economic development, transportation and recreation. We would need reassurances that an easement would not alter our setbacks or adversely affect any allowed use due to this concession. I would like to thank the Town of Maynard, the Massachusetts Department of Transportation and all the partners involved in this exciting endeavor for bringing it our way.

We hope this ARRT investment will spur economic growth and present us with some opportunities to add jobs and revenues to our business.

Respectfully,

  
Nick Dimopoulos
